

Take-Home Exercise: Reflecting on Module 7

Reflect on the exercises, activities, skills, and approaches addressed in this module. Record your answers to the following questions and be prepared to share your answers at the beginning of the next module.

1. Reflect on the products shared during the showcase. Which ones might you want to create or learn more about? How might those products enhance your productivity in the classroom?

2. How might you use the Internet, word processing software, multimedia software, and other technology to communicate and collaborate with your colleagues, your students' parents, and the community so that they can be partners in helping students learn?
